INAIPI CLICK-TO-CALL SERVICE FOR INNUMERABLE CALL CHANNELS ANYTIME, ANYWHERE

Covert your web traffic into immediate footfall and sales using the robust Inaipi Click-to-Call service on Cloud. It's a functional tool that opens up multiple channels on your website for customers to connect to your helpdesk on the go, on your website.

The Inaipi Click-to-Call service built on Avaya WebRTC links your VoIP to your website and quickly enables browser-based real time communication via video, voice and web conferencing capabilities.

Your customers can call you with a click and enquire, place orders or ask for support without the hassle of dialing a new number. These calls would land on an agent desk who can answer the phone on a regular telephony or even a softphone.

BENEFITS

COST EFFICIENT

Get multiple channels without purchasing additional telephone lines

DIRECT RESPONSE MARKETING

Potential customers who like your website / the product or service you offer online can call you on the spot to place orders without loss of engagement.

WIDELY ACCESSIBLE

On web browser and independent of any software downloads or Plugins for callers.

DESKTOP AND MOBILE DEVICE FRIENDLY

Unlimited number of calls can be made from desktop client or from mobile phone.

SUPPORTS VOICE MAIL INTEGRATION

Voice-mail collection service can be enabled in case of limitation in agents' availability.

QUICK INSTALLATION

Have Iniapi Click-to-Call set-up at your workplace in maximum 2 days.

IMPERIUM SOFTWARE TECHNOLOGIES

An industry leader in ICT solutions since 2005, Imperium is a software product house and the only expert in the region to hold almost a decade long association with Avaya as a certified Avaya DevConnect Technology partner.

We believe in enabling complete business automation by offering advice, solution, implementation and profession support for integration and telephony systems. Imperium is the one-stop solution partner for all your ICT needs.
